RA Manager Training and Certification

RM100: Managing the Revenue Assurance Lifecycle (Workshop)

Learn how to set up, staff and run a completed integrated revenue assurance operation! – Learn how to get better control over your requirements, your workload and forecast your impacts! This class provides the student with a comprehensive review of the complete, fully integrated revenue assurance lifecycle. Students will learn how to organize, staff and make the entire process operationally integrated, efficient and effective.

RM105: Revenue Assurance Vision, Mission and Organizational Fit

Learn how to integrate your revenue assurance with the rest of the organization! – Learn how to make RA the trusted partner of every operational manager and internal auditor in your organization! This class provides the student with an operational and organizational perspective on revenue assurance. In this class we discuss the role of RA within the telco, and the relationships between RA and the other departments.

RM115: Principles of Revenue Maximization

Learn how to turn your revenue assurance team into more than just a "clean up crew". – Learn how RA managers are helping to increase revenues and protect profits through the application of sound revenue assurance practices.
